Mālō e laumālie

We are privileged to welcome you to our annual Pasifika Medical Association Conference here in Christchurch, New Zealand. We are excited to gather and celebrate the fantastic work being carried out across the Pacific region by our Pacific health and medical colleagues.

This year's theme, "*Vunilagi ni bula sautu - Living our best lives*", captures the holistic approach to health and wellbeing that has always grounded our Pacific communities. We look forward to exploring this theme in depth as we continue to navigate our respective fields and futures, together.
